

2025 Annual Concrete Placement Work Order Construction Contract, Package 1

This contract will provide contractor support to augment the SAWS Distribution and Collection Operations Group with concrete repairs. SAWS must minimize the impact of system repairs on concrete infrastructure and restore it to its previous condition.

The contractor will be responsible for providing labor, materials, equipment, and supervision to repair or construct concrete in the SAWS system based on work orders issued by Distribution & Collection management. This may involve repairing or replacing SAWS buried infrastructure and restoring driveways, curbs, sidewalks, retaining walls, and other affected concrete areas as needed.

When Work Will Occur:

- Construction award is planned for Dec 2024.
- Cost estimate for the project will be \$1,000,000.
- Contract term will be for 365 days or until the contract capacity runs out.

What to Expect:

- The work will be throughout SAWS' service area. Work orders are unspecified until time of issue.
- The work may be in coordination with and around SAWS repair work.
- During the construction of this project lane closure may happen adjacent to the project site.
