

2023 Sewer Main Replacement Project 3

SAWS construction work on this project will rehabilitate and replace approximately 2,665 LF of 8 to 18-inch gravity sewer mains utilizing Cured-In-Place Pipe (CIPP) method in various locations within the City of San Antonio and the City of Terrell Hills.

When Will Work Occur?

Construction is planned for Summer of 2024. Estimated construction duration is 365 calendar days.

Construction Elements:

- ✓ Rehabilitation of approximately 2,665 LF of 8 to 18-inch gravity sewer mains utilizing Cured-In-Place Pipe (CIPP) method.
- ✓ This project will address sewer mains in need of repair based on condition assessment and will also replace associated manholes.
- ✓ Bypass of large and small diameter sanitary sewer required.
- ✓ Traffic Control required within CoSA and TxDOT ROW.
