WATER SYSTEM CONSTRUCTION**

Addendum No. 3

To Specifications For

2014 Annual Sanitary Sewer Main Point Repair and Manhole Adjustments Construction Contract –
Package 1

SAWS Job Nos. 14-0109 (O&M) and 14-1402 (CIP) and 13-1403 (CIP)

Solicitation No. CD-B-14-021-MR

This addendum, applicable to the work associated with the above referenced Contract, is an amendment to the bidding documents and as such shall be a part of and included in the Contract. The original contract documents and any prior addenda remain in full force except as modified by the following, which shall take precedence over any contrary provisions in prior documents.

Special Provisions:

Clarification:

When a work order is issued to perform a point repair to the main and a sewer service lateral exists within the limits of the repair, the lateral shall be renewed from the main to the property line. If the main is repaired within the 4 LF limits of the connection for the renewed lateral, the 10 foot minimum length requirement for the point repair doesn't apply. Therefore, payment will be made for the lateral renewal and the connection, not for the point repair.

If the point repair extends beyond the 4 LF limits of the connection for the renewed lateral, then the length of repair of main beyond the 4 LF limits of the connection will be paid as extra length point repair in addition to payment for the lateral renewal and connection.
