Question:

1. A number of the sheets on 15-4510 are very blurry and difficult to read.

Sheets 8-12 blurry

Sheets 14 & 15 missing

Sheets 16 – 24 blurry and 16 – 19 are out of sequence on the sheet numbers

Traffic control pages are not readable. Very small print and blurry.

Response:

The plans initially uploaded to SAWS' website were blurry. The issue has been corrected and the plans were uploaded a second time the morning of May 12.

SAWS confirmed that there were no missing pages. Therefore, all plan holders have the exact same set of complete plans regardless of when they were downloaded.
