END OF ADDENDUM No.1

Project: Central Water Integration Pipeline Segment 5-4 Project

Question and Answer Form

Solicitation No.: CO-00182

Job No.: 18-8614

Question No.	Received	Date Sent to Consultant	Attachments (if any)	Questions	Who should Respond	Answer	Addendum Number
1	10/12/2018	10/19/2018	N/A	When will the geotech report for Segment 5-4 be released? I only see the specs and drawings upload so far.	N/A	These are now available and can be found at: http://www.saws.org/business_center/ContractSol/Drill.cfm?id=3318&View=Yeshttps://www.sa	1
2	10/12/2018	10/19/2018	N/A	I am having difficulties downloading set of specifications from website, would you be able to help out on this?	N/A	The files are large in size and may take a while to download. If unable to download, please contact the Contract Administrator, Jessica Goforth at Jessica.Goforth@saws.org .	1
3	10/18/2018	10/19/2018	N/A	The note on the bid proposal regarding the Mobilization and Demobilization lump sum bid being limited to 5% of the bid items references bid items 3 - 33, why are we not including the bid item 35 landscape planting and bid item 36 removal, transportation and disposal of asbestos cement pipe in with bid items 3 - 33 for mobilization and prep of right of way?	Engineering	The bid proposal is being revised by addendum No 2. The second mobilization is being deleted. There will only be one mobilization/demobilization bid item for the entire project.	1
4	10/18/2018	10/19/2018	N/A	On bid item 34 and bid item 37 do these two mobilization and demobilization line items have to stick to the 5% limit as well?	Engineering	The bid proposal is being revised by addendum No 2. The second mobilization is being deleted. There will only be one mobilization/demobilization bid item for the entire project.	1
5	10/24/2018	10/24/2018	N/A	We would like to get an set of plans & specs for the Central Water Integration Pipeline Segment 5-4 Project.	N/A	For plans and specifications, please download from the SAWS website at: https://www.saws.org/business_center/ContractSol/	1
6	10/24/2018	10/24/2018	N/A	Is there a cost for this bid Pkg. ?	Engineering	Yes, per the SAWS web the estimate is \$6,179,469.00 as of 11/1/2018.	1
7	10/24/2018	10/24/2018	N/A	Is there an engineer's Estimate on this project?	Engineering	See response to Answer #6.	1
8	10/24/2018	10/25/2018	N/A	On page 15060-5 Section 2.02 Fittings, it is noted that Butt Fusion Fittings will not be allowed on this project, unless otherwise noted. Since the pipe is going to be Butt Fusion will this allow the fittings to be Butt Fusion at this point?	Engineering	Bid per the project specification. Per Section 15060, Part 2.02.A - butt fusion fittings are not allowed. Fittings for HDPE pipe shall conform to this section and the fittings called out for on the plans.	1
9	10/24/2018	10/25/2018	N/A	On sheets C3401 Note 37 and C3420 Detail 1 is trying to explain what is needed for the tie-in. Could a more detail drawing on what showing be given to us. Not sure without using a reducer what the engineer is wanting.	Engineering	Provide connection as shown on the plans. The 30" HDPE pipe flange is to be connected to a welded on 30" OD steel flange that is bored for the existing 24" steel pipe OD. A custom steel flange is required.	1
10	10/24/2018	10/25/2018	N/A	Is this a Buy American or ASI project?	Engineering	No this project is not.	1
11	10/24/2018	10/25/2018	N/A	What is the pressure test for the Butterfly Valves need to be at?	Engineering	Pressure test shall conform to the SAWS Standard Specifications 841.	1
12	10/26/2018	10/26/2018	N/A	Will the contractor be responsible for obtaining and paying for the COSA ROW Permit and Inspections?	Engineering	Per SC 2.2 CONTRACTOR shall be responsible to prepare and file all documents and forms associated with the City of San Antonio (COSA) Right of Way Use Permit. CONTRACTOR shall be responsible to pay all associated fees. There is no separate pay item for this permit.	1
13	10/26/2018	10/26/2018	N/A	Has COSA ROW approved the pavement trench repair in lieu of full mill and overlay from curb to curb as shown in certain areas of the drawings?	Engineering	The limits coordinated with COSA ROW during the design phase are on the contract documents. Bid per the contract documents.	1
14	10/26/2018	10/26/2018	N/A	For the over excavation and placement of gravel subgrade filler, will the widths of the subgrade filler match the trench width shown on the details on Sheet C-3901 (Soil Surface & Asphalt Surface)	Engineering	Yes	1
15	10/26/2018	10/26/2018	N/A	Will chlorination of the waterline be performed by SAWS or the contractor?	Engineering	Disinfection will be per SAWS Std Spec 847.	1
16	10/29/2018	10/29/2018	N/A	Per the Supplemental Conditions, the bidder is to provide an "information packet". What information shall be included in the company information packet? Can SAWS provide a template for the "information packet"?	Contracting	The company information packet typically includes company experience, history, available equipment, and information about company's capabilities and expertise. There is not a template. These plans can be obtained by contacting the City of San Antonio Project Manager for these projects: Sean Strong, PE. At: sean.strong@sanantonio.gov .	1
17	10/29/2018	10/29/2018	N/A	Please define the limits of the Barbara Drive Drainage Project Phase I & Phase II as discussed in the Special Conditions (SC-1.6).	Engineering		1
18	10/29/2018	10/29/2018	N/A	Special Provisions to the Technical Specifications SPTS-6, Specification Item No. 103 (Remove Concrete) has the same statement to be replaced. Please confirm if this is correct or if modifications are intended for this section. It seems as if the spec section is intending to change the unit of measure to square yard but the bid item is square foot.	Engineering	Yes, the intent is to change the units. This will be changed by addendum no. 2.	1
19	10/29/2018	10/29/2018	N/A	Please identify where on the plans bid item #55 is located "Landscape Planting". Is the owner wanting planting performed or seeding? No plants are shown in the plans or revegetation specifics.	Engineering	SAWS is requiring hydroseeding of work areas that are currently dirt or turf.	1
