Question:

Do the gas tanks located on the back of the property need to be removed? Do you know the last time the tanks were filled and/or put into use and assuming SAWS will not be responsible for the removal, what is the cost and extent of removal would be?

Answer:

At one time during BexarMet's use of the property, there were above ground tanks connected to the pumps. During BexarMet's time at the property the above ground tanks were removed. The pumps are not connected to anything.
