

Meter Data Management System (MDMS) Solution for the ConnectH2O Program  
Solicitation Number: R-19-013-JAM

ADDENDUM 3  
December 18, 2019

To Respondent of Record:

This addendum, applicable to project referenced above, is an amendment to the RFCSP. Acknowledge receipt of this addendum by entering the Addendum number and issue date on the space provided in submitted copies of the Respondent Questionnaire.

**RESPONSES TO QUESTIONS**

1. Question: In lieu of the bid bond, we are willing to provide 3 years of audited financials. Would that be sufficient for this RFP response?

**Response: SAWS will not accept alternatives in lieu of a bid bond.**
2. Question: With the holidays occurring during production of the RFP response, would SAWS consider an extension to the January 22 deadline?

**Response: SAWS will not be extending the submission deadline for this project.**
3. Question: The AMI mentions in Section IV.B.4. (page 11 of 193) that the “SAWS on-Premise Vendor Assessment Questionnaire” is not included in the page limit. However, this questionnaire does not appear to be included in the RFP documents. Is this an error?

**Response: Yes, this is an error in the paragraph. Respondents are requested to provide a completed “Appendix-3 SAWS\_Cloud\_VTAQ-Lite\_20190522.xls” questionnaire, which will NOT count in the page limitation of the response. In addition, Respondents will recognize related Non-Functional requirements which must also be completed and submitted in the response.**
4. Question: It was noted that in the “Functional Technical Requirements” .xls, in the “tab 1.0 MDMS Offeror Quals”, the below question appears to be related to installation services. Should this read “MDM Solution” etc?

1.3.2 SAWS understands that it is important to provide the Offeror with the ability to tell its story in an unconstructed fashion to ensure that the Offeror can communicate key issues and ideas that may not be easily communicated within the rigid confines of the questions of this RFP. The Offeror is encouraged to provide SAWS with a concise and comprehensive overview of its **End Point Installation services**, focusing on its ability to leverage its services to successfully support SAWS in the SAWS Connect H2O project. The Offeror’s response to this section shall use no more than 4 pages. The Offeror should not waste this space with sales or marketing materials but remain focused on why it should be chosen to assist SAWS.

**Response: Yes, this is an error in the paragraph. The noted portion should reference MDMS Solution.**

**END OF ADDENDUM 3**

This Addendum is **one (1)** page in its entirety. There are no attachments.
