

Naco Ground Storage Tank Rehabilitation Project  
SAWS Solicitation No. B-19-015  
Job No. 17-0113

**ADDENDUM 6**  
December 20, 2019

To Bidder of Record:

This addendum, applicable to work referenced above, is an amendment to the bid proposal, plans and specifications and as such will be a part of and included in the Contract Documents. Acknowledge receipt of this addendum by entering the Addendum number and issue date on the space provided in submitted copies of the bid proposal.

**RESPONSES TO QUESTIONS**

**1. Question:** “We are working with a third party company for all the safety needs. They are in charge for safety inspections, visits and training. We would like to know if we can use their services for all of the SAWS Naco Project ,or do we have to have our own safety employee?”

*Response:* No, you cannot use their services for the Competent Person for Safety. The Supplemental Conditions on page SS-2 addresses this: “Key Personnel shall be dedicated to this Project and shall be assigned as full-time employees of the company for the duration of the Project.”

**2. Question:** We notice that on the “safety person form”, it shows “100% is required for this project”. Can we use the third party information for this project, or can we use the superintendent information?

*Response:* No you cannot use a third party for the reason stated above. The SIR also states that, “The Competent Person for Safety shall be dedicated exclusively to this Project along with either the Construction Superintendent or the Foreman.” In addition, the Superintendent or Foreman cannot be the same person as the Competent Person for Safety. Please refer to Section 01060-5: “L. Authority for Contractor’s Competent Person(s): The term Competent Person or CP refers to a person assigned to the project who is capable of identifying the hazards and has authorization to take prompt corrective action to eliminate them. Contractor’s Competent Person(s) shall have the complete support of top management and written authority to ensure these operations are carried out in accordance with compliance plans and governmental regulations, independent of production pressures. To ensure independence, Contractor’s Competent Person(s) shall report directly to the headquarters office and not to the site foreman. The Contractor’s Competent Person(s) may have additional responsibilities and carry out other work assignments, but shall not routinely be a member of the crew that actually performs surface preparation work.”

**END OF ADDENDUM**

This Addendum is 1 page in its entirety.
