

REQUEST FOR COMPETITIVE SEALED PROPOSALS

AUTOMATED METERING INFRASTRUCTURE (AMI) SOLUTION FOR THE CONNECTH2O PROGRAM

Solicitation No.: R-19-014-FF
Addendum 1 | December 5, 2019

RESPONSES TO QUESTIONS RECEIVED

- 1. Question** - In regards to the aforementioned AMI RFP, is it possible that the posted deadline for questions, December 5th is a misprint and is actually January 5th? Considering the complexity of the RFP and that it was released just before the Thanksgiving holiday, we have not had the opportunity to review the RFP in its entirety.

Response - The first deadline for submitting technical questions is revised in this Addendum 1 under the Changes to the RFCSP section below.

- 2. Question** - Can we get an extension on the technical question deadline? The RFP was released last Wednesday and we had several personnel off on vacation as it was the day before Thanksgiving. If the deadline was bumped to Monday, Dec. 9th, it would allow our team more time to review the RFP thoroughly.

Response - See the Response to Question 1 above.
