

REQUEST FOR COMPETITIVE SEALED PROPOSALS

AUTOMATED METERING INFRASTRUCTURE (AMI) SOLUTION FOR THE CONNECTH2O PROGRAM

Solicitation No.: R-19-014-FF
Addendum 3 | December 13, 2019

RESPONSES TO QUESTIONS RECEIVED

- 1. Question** - Since the pilot will use two AMI Respondent products, will this include the use of each AMI Respondents interfaces, or is it expected to interface with the Connect H2O program?

Response – SAWS interprets "interfaces" to mean a customer portal. SAWS is not planning to implement Offerors' customer portals.

- 2. Question** – Will the Offerer/vendor be able to provide polymer/plastic lids in lieu of the Cast Iron lids for the either the AMI RFP, or provide to SAWS for the EPI RFP awarded vendor?

Response - SAWS is not planning to replace cast iron lids. However, SAWS is willing to consider Offeror proposals that include replacement of cast iron lids. The final approval of replacement lids and the locations where the lids could be utilized would reside with SAWS.
