

**REQUEST FOR QUALIFICATIONS  
CONDITION & RISK ASSESSMENT  
FOR  
PRESSURIZED WATER PIPELINES**

**Solicitation No.: Q-16-008-PC**

**Addendum I | September 2, 2016**

**QUESTIONS AND ANSWERS**

This is the only question that was received by the deadline for the Condition & Risk Assessment for Pressurized Water Pipelines.

**Question:**

Does the 20 page limit include or exclude the team resumes?

We did not see resumes indicated as excluded in section B. "Submission" on page 4, nor as required, in section 4. "Team Experience" on page 5. We would like to include a chart with the list of team members and the requested information and include full resumes either within the document or as an appendix.

Please advise on your preferred format and will be happy to provide it.

**Answer:**

Team resumes are included in the 20 page limit. Full resumes are not necessary; however, if you choose to provide them, the resume pages will count toward the 20 page limit.
