

**SAN ANTONIO WATER SYSTEM
WATER SYSTEM CONSTRUCTION**

Addendum No. 1

To

Plans and Specifications

For

Far North Service Center Perimeter Fence Project

SAWS Job No. 11-7701

B-12-047-CM

To Bidder of Record:

This addendum, applicable to the work designed above, is an amendment to the bidding documents and as such shall be a part of and included in the Contract. The original contract documents and any prior addenda remain in full force except as modified by the following which shall take precedence over any contrary provisions in prior documents.

1.0 **Addendum Purpose**

The purpose of this addendum is to respond to bidder's questions.

2.0 **Answer to Bidders Questions**

1. **Question:** Please guide me or indicate where can be found in the bid documents the location of the required gates of various sizes?

Answer: All property pins are currently identified and "flagged". In accordance to SC-3.2 Sitework:

- After this contract has been awarded and upon "Notice to Proceed" a Registered Surveyor will mark the property lines where the fence will be installed.
- The Contractor is responsible for verifying and protection of the property line in the field. Surveyor's corner caps and rods shall not be disturbed.

The locations of all gates (main access, single and double swing access gates) will be marked in the field, once surveying has been completed.

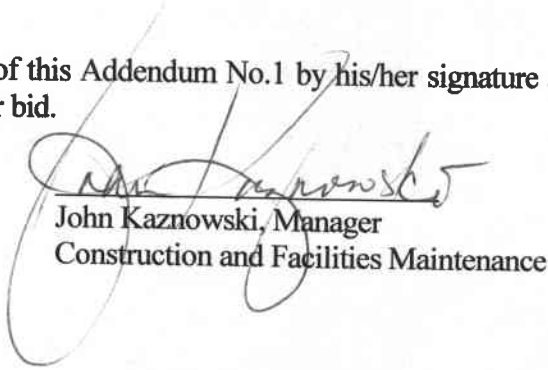

2. **Question:** Will contractor be responsible for demo of existing fence?

Answer: As discussed at site visit, the intent is for the new fence to be off-set however where the existing fence is in poor condition such that it cannot be tied into with new fence that portion will need to be removed.

3. **Question:** Was there a soil survey done for project site and if so can a copy be obtained by contractors?

Answer: Soil survey was not performed, all excavation is unclassified.

Each bidder is requested to acknowledge receipt of this Addendum No.1 by his/her signature affixed hereto and to file same with and attached to his/her bid.
