RESPONSES TO QUESTIONS

1. **Question:** I have reviewed the plans and specifications for this project and found that SCI was not listed as an approved controls contractor for this phase. Please consider adding SCI to the approved control contractors list, SCI has programmers & control technicians on staff as well as a UL508A panel shop located at our main office in New Braunfels Texas.

Response: SCI will be added to the approved controls contractor list.

2. **Question:** I noticed in the 09902 section that it states "All painting materials shall be fully equal to those manufactured by the Tnemec Company Inc. or Sherwin-Williams Company." Does this also apply to the interior concrete linings portions of the project? Also does SAWS have an approved manufacturers list for the interior wet well concrete linings?

Response: Refer to the Contract Documents for schedule of manufacturers and suppliers for major equipment or products list regarding the interior concrete linings. The approved manufacturer's list is available upon request from SAWS.
