

REQUEST FOR PROPOSALS ORGANIZATION EFFICIENCY STUDY R-13-012-PC

ADDENDUM #1 – 11:00 AM (CT) - March 27, 2013

This addendum provides answers to questions submitted by the deadline as listed in the RFP.

ANSWERS TO QUESTIONS

Question:

Would SAWS, in the interest of efficiency and cost effectiveness, consider separating the scope of work into two distinct components: Technical (Items 2 and 4) and Non-Technical (Items 1, 3 and 4) and then allow firms to present pricing for one or both components. It is likely that more efficient pricing and expert assistance will be provided under a separation of deliverables.

Answer:

The response to the proposed project approach and compensation component should be provided by scope of service phase. SAWS is looking for a firm to provide a complete study of all areas specified in the scope of services and will not consider proposals that consider only certain portions of the scope of services.

Should your firm have expertise in a specialized area and not in all areas of the scope of services, it is recommended that sub-consultants join your team for a complete proposal to the services sought in this RFP.

END ANSWERS TO QUESTIONS

No other items, dates, or deadlines for this RFQ are changed.
