

2020 CMOM Package 6A (Jack and Bore, Open Cut)

SAWS construction work on this project will install approximately 2,627 LF of 8-inch through 36-inch and abandon 2,878 LF of gravity sewer mains in several locations within multiple Sewersheds. This project is part of the work required by San Antonio’s agreement with the EPA to rehabilitate deteriorated sewer infrastructure across the city.

When Will Work Occur?

Construction is planned for 2024. Estimated construction duration is 306 calendar days.

Construction Elements:

- ✓ This project will address sewer mains in need of repair based on condition assessment and will also replace associated manholes.
- ✓ Construction of this project will be in multiple Sewersheds within the City of San Antonio.
- ✓ Installation of approximately 2,627 LF of 8-inch through 36-inch gravity sewer mains via Jack & Bore and Open Cut methods and abandonment of approximately 2,878 LF of gravity sewer mains.
- ✓ Construction within COSA and TxDOT right of way.
