

## Silver Mountain Pump Station Upgrades Project

The Silver Mountain Pump Station is a former Bexar Met primary water pump station. This facility serves customers in South Bexar County in pressure zone (PZ) 920 with a three-pump booster station. The proposed upgrades will provide increased pumping capacity and provide elevated storage for PZ 830 and ground storage for PZ 920.

### When Work Will Occur:

- Construction is slated to start in the 2<sup>nd</sup> Quarter of 2025.
- Estimated construction duration is 30 months.

### Construction Elements:

- Construction of a new water tank, booster station, hydro-pneumatic tank, updates to the electrical system, site improvements, and SCADA control system upgrades will also take place
- Also included is the demolition of existing concrete slabs, skid-mounted pump station, underground piping, as well as electrical duct banks, cabinets, and conduits.
