This addendum, applicable to work referenced above, forms a part of the Contract Documents and modifies the original Contract Documents dated May 2015. Acknowledge receipt of this addendum by entering the addendum number and issue date in the spaces provided on submitted copies of the Bid Proposal. Failure to do so may subject Bidder to disqualification.

**A. GENERAL QUESTIONS/CLARIFICATIONS**

1. Question: What type of work could be issued?

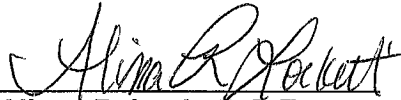

Response: The majority of work orders issued on this contract are for driveways often including some sidewalk and curb replacement. Refer to Paragraph SC-1.2 of the Special Conditions for more details on typical work orders. Historically, a few of the work orders issued have been special projects (as discussed in Paragraph SC-2.4 of the Special Conditions), which include larger slab on grade or retaining wall installation at SAWS facilities. The median work order cost in 2014 was \$2,357.78. Approximately 95% of work orders were between \$1,100 and \$4,400 in cost.

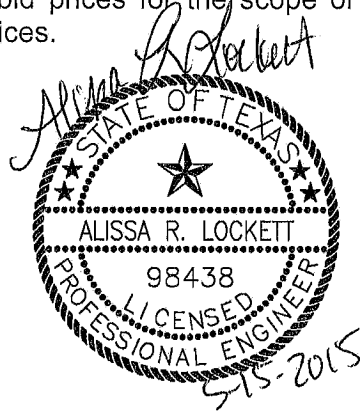

2. Question: Will work commence after Notice to Proceed?

Response: This contract is expected to be awarded in June. Current projections indicate that the 2014 Annual Concrete Work Order Construction Contract currently being utilized will be fully expended in July, which is when work orders would start being issued through this new contract. However, it is possible that the work orders may start being issued immediately after Notice to Proceed.

3. Question: After these contracts are awarded, will there be separate bids for the Work Orders?

Response: No, the intent of these bids is to lock in bid prices for the scope of work needed. Work orders will be issued based on the bid prices.
