# Special Conditions

fully staffed and equipped, to be actively working on concurrent work orders as issued under the contract, and must submit with their bid a detailed description of the available resources (which shall at a minimum provide a list of equipment and employees on the crew), demonstrating the ability of the bidder to have the **minimum two (2) independent crews** available at all times. Any bid package that does not include this information or any bidder who cannot make available at all times **a minimum of two (2) independent crews**, fully staffed and equipped, for any contract in which it is the lowest bidder may be determined to be non-responsive at the sole discretion of the San Antonio Water System. SAWS may have multiple contracts involving the same or similar work, either currently active, or to be bid concurrently with this Request for Bids. SAWS, in making a determination that a bidder has sufficient capacity in crews and equipment to provide the resources necessary to complete work orders as may be issued under this contract, may consider such other contracts or bids that bidder has submitted to SAWS.

- (b) In order to provide a responsive Bid, the Bidder (Prime Contractor) must provide evidence, satisfactory to SAWS, of being a responsible bidder on other projects, by providing a minimum of three (3) **successfully completed** sanitary sewer projects within the last five (5) years. **As part of the evidence of responsible bidder, the Bidder shall submit project name, scope of sanitary sewer work performed (rehab type, pipe size and length), point of contact, construction cost, and construction start and completion dates.** If completion of those projects included the assistance of sub-contractors, prime must submit the names of the sub-contractors used on those projects and specify if those same subs will be used on this contract. Criteria to be evaluated by SAWS in reviewing Contractor's submitted successfully completed projects, will include but not be limited to, Contractor not defaulting on the contract, contract (or individual work orders as the case may be) being completed on time and contract (or individual work orders, as the case may be) incurring zero (0) Owner claims. The Bidder is also to submit the sub-contractors experience if they will be part of the crews doing the work for the Prime Contractor. Contractors should reference in their bid sanitary sewer projects that included CIPP construction method of a minimum of 5,000 linear feet of sanitary sewer mains (CIPP method) with a minimum size of eight (8) inch sanitary sewer mains and up to and including thirty-six (36) inch sanitary sewer main. One of the successfully completed sanitary sewer projects must include a thirty-six (36) inch main.
