

**REQUEST FOR QUALIFICATIONS
LIFT STATIONS REHABILITATION DESIGN –
PHASE 5**

Solicitation No.: PS-00016

Addendum 3 | January 7, 2016

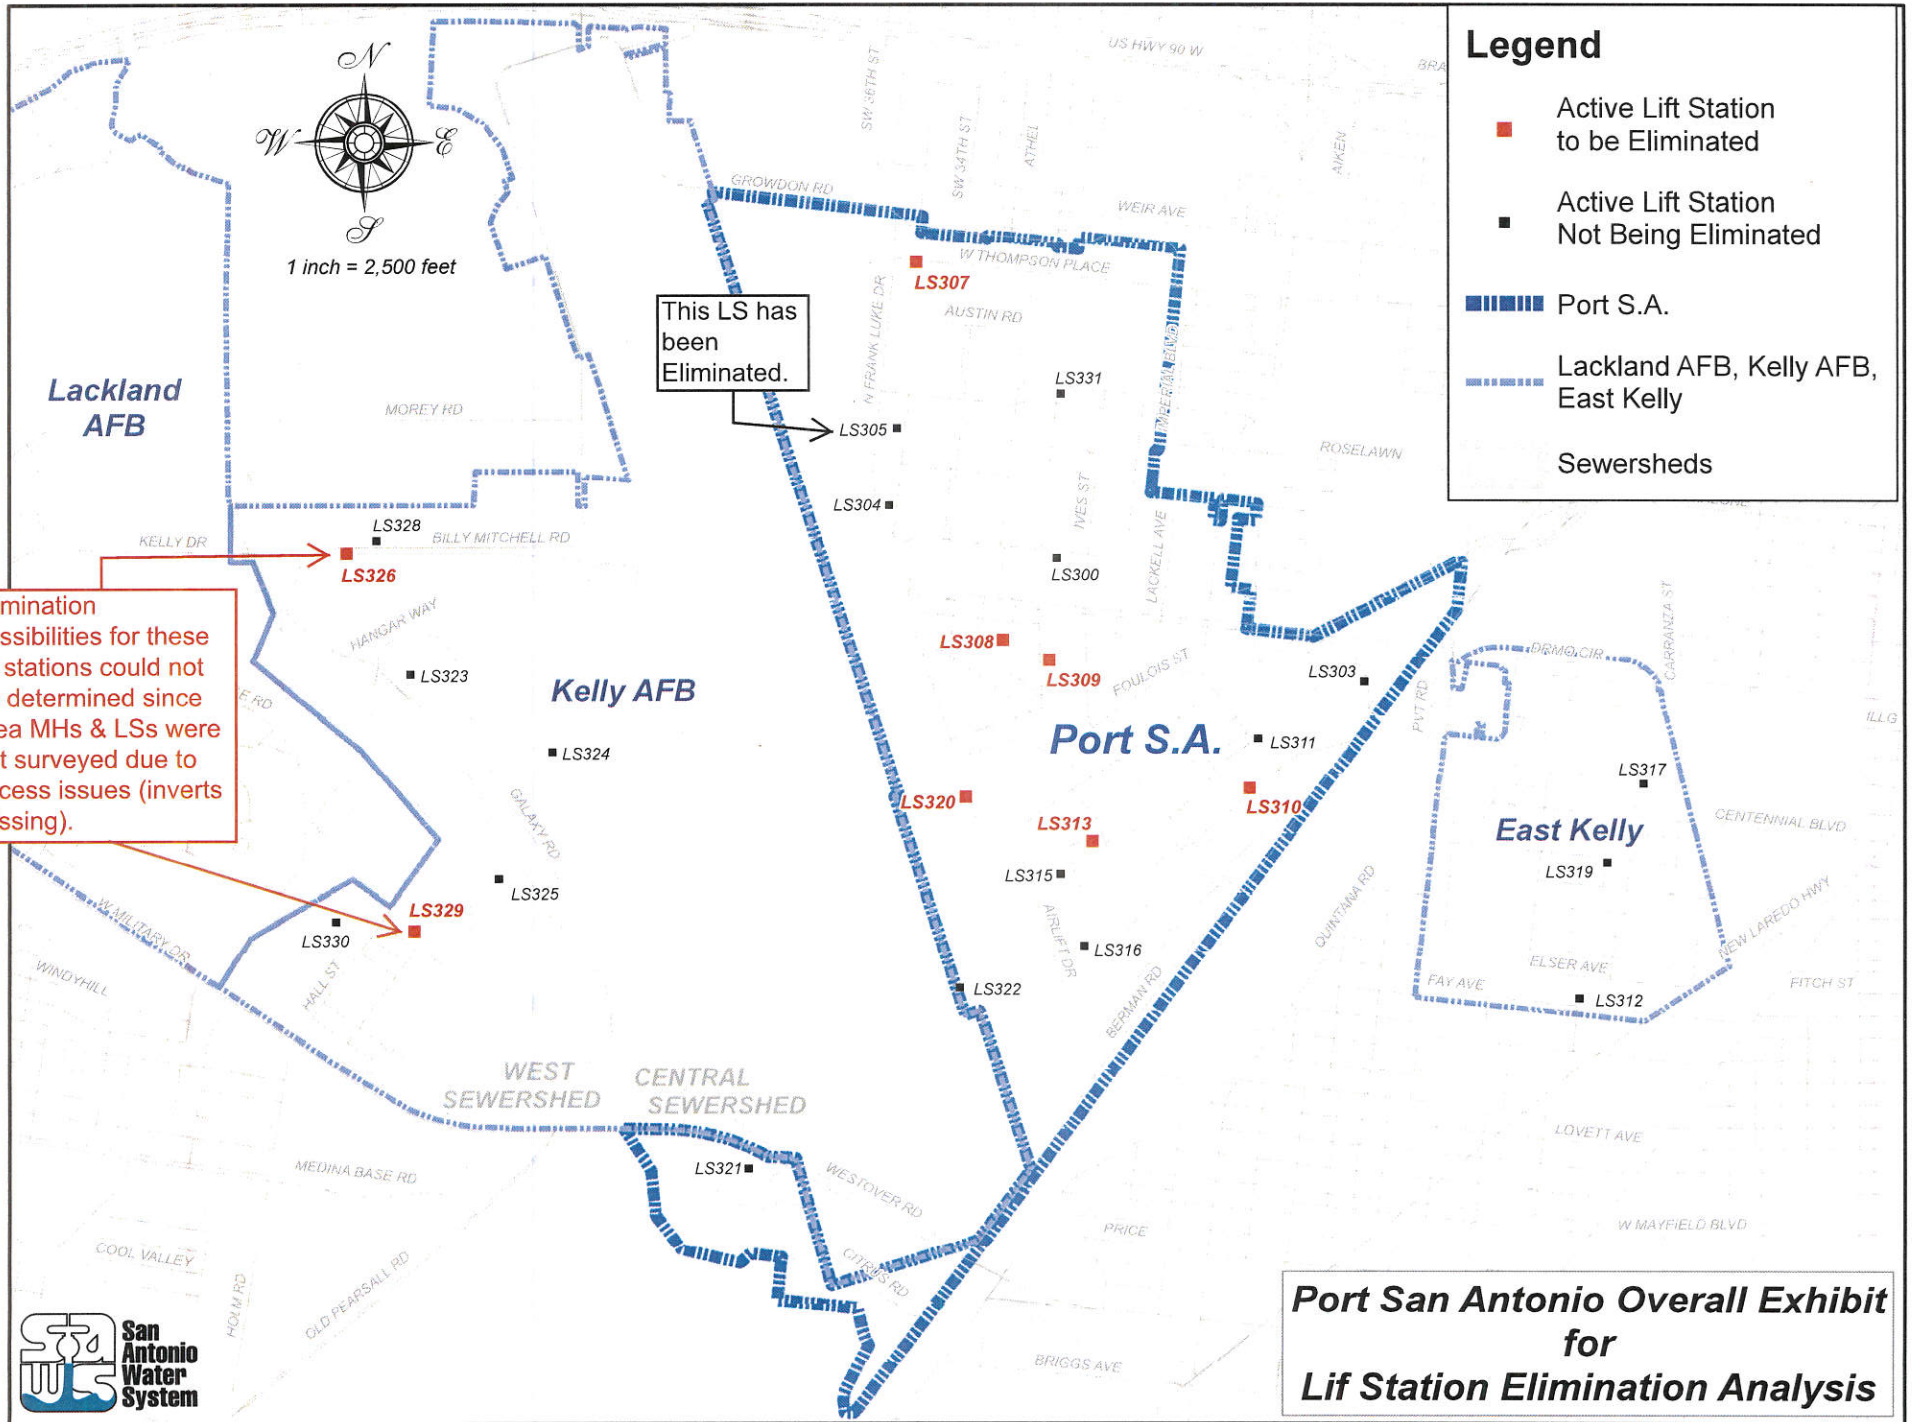

References for Informational Use Only

1. A map dated October 2012 is included with this addendum. The map shows the approximate location of the Port San Antonio and Lackland lift stations. With the exception of LS 305, all lift stations shown in black are currently planned as part of the Lift Stations Rehabilitation Design – Phase 5 Project. All lift stations shown in red either have been or will be eliminated on a separate SAWS project(s). The location map is to be referenced for informational purposes only.
2. Before and after photos of a lift station that has gone through a rehabilitation are included with this addendum. The photos are to be referenced for informational purposes only.
3. The following link includes information on the SAWS’ Lift Station Guidelines and Standard Drawings:

http://www.saws.org/business_center/Developer/newdevel/

More specifically, please note the PDF documents titled “Lift Station Design Guidelines” and “Lift Station Design and Construction Guidelines Standard Drawings.” This information is to be referenced for informational purposes only.

Legend

- Active Lift Station to be Eliminated
- Active Lift Station Not Being Eliminated
- Port S.A.
- Lackland AFB, Kelly AFB, East Kelly
- Sewersheds

Elimination possibilities for these lift stations could not be determined since area MHs & LSs were not surveyed due to access issues (inverts missing).

This LS has been Eliminated.
