

2019 CMOM Urgent Package 1

SAWS construction work on this project will rehabilitate approximately 0.45 miles of 8-inch through 12-inch sewer main within residential and commercial areas in the east, west, and central sewersheds. This project is part of the work required by San Antonio’s agreement with the U.S. EPA to rehabilitate deteriorated sewer infrastructure across the city.

When Will Work Occur?

Construction is planned for the Fall of 2019. Estimated construction duration is 9 months.

Construction Elements:

- ✓ Construction work includes the rehabilitation of 387 LF of 6-inch sewer main, 1,373 linear feet of 8-inch sewer main, 375 linear feet of 10-inch sewer main, and 269 linear feet of 12-inch sewer main.
- ✓ One segment is located within CoSA’s street improvement project.
