

## 2020 SMP Pkg V (La Haya, Rosewood)

SAWS construction work on this project will replace approximately 610 feet of 8-inch of sewer main and approximately 2,415 feet of 8-inch water main. This work is required to replace deteriorating water and sewer infrastructure in this area.

### When Will Work Occur?

Project Construction is anticipated to begin in the fall of 2019 with a project duration of approximately 6 months.

### Construction Elements:

- ✓ A traffic control plan, which may include a combination of detours and lane closures, will be reviewed and approved by City of San Antonio Right of Way Department.
- ✓ Construction of this project will be in two different locations within the City of San Antonio.
- ✓ The two project sites are located within residential areas.
- ✓ Approximately 610 linear feet of 8-inch sewer main and approximately 615 linear feet of 8-inch water main will be replaced via open cut along La Haya from El Charro to De Luna.
- ✓ Approximately 1,800 linear feet of 8-inch water main will be replaced via open cut along Rosewood from Capitol to Blanco Road.
- ✓ City of San Antonio work which may include asphalt and concrete work will follow after SAWS work is complete.
- ✓ Construction is along CoSA right of way.
