

## 2020 SMP Pkg VI (Warner, Tomar)

SAWS construction work on this project will replace and upsize approximately 2,415 feet of 6-inch AC & CI water main to 8-inch PVC water main. This work is required to upsize and replace deteriorating water infrastructure in this area.

### When Will Work Occur?

Project Construction is anticipated to begin in the fall of 2019 with a project duration of approximately 6 months.

### Construction Elements:

- ✓ A traffic control plan, which may include a combination of detours and lane closures, will be reviewed and approved by City of San Antonio Right of Way Department.
- ✓ Construction of this project will be in two different locations within the City of San Antonio.
- ✓ The two project sites are located within residential areas.
- ✓ Approximately 550 linear feet of 6-inch water main will be replaced and upsize via open cut along Warner St. from Fredericksburg Rd. to W. Mulberry Ave.
- ✓ Approximately 1,967 linear feet of 6-inch water main will be replaced and upsize via open cut along Tomar Dr. from Jamaica Dr. to Cable Dr.
- ✓ City of San Antonio work which may include asphalt and concrete work will follow after SAWS work is complete.
- ✓ Construction is along CoSA and TxDOT right of way.
