

## **Talley Rd. and Sable Run Pressure Zone Interconnections**

SAWS construction work will consist of the installation of two new pressure reducing valve structures (PRVs) to be located near Sable Run and Millstone Cove, and Talley Rd. and Earl Roberts Rd. in the far northwest part of Bexar County. Talley Rd. will install a new 12-inch pressure reducing valve (PRV) serving Pressure Zone 1044 from Pressure Zone 1111. On Sable Run a new 12-inch pressure reducing valve (PRV) serving Pressure Zone 1610 from Pressure Zone 1400.

### **When Will Work Occur?**

Estimated construction duration is 90 days.

### **Construction Elements:**

- ✓ Both sites will have dedicated easements.
- ✓ Traffic Control will be implemented at site locations.
- ✓ Disruption to Water service is anticipated.
