

# Multiple Sewershed Package 12

SAWS construction work on this project will rehabilitate approximately 0.55 miles of 8-inch through 12-inch sewer main in the central and east sewershed service areas. Sewer mains are located within residential and commercial areas. This project is part of the work required by San Antonio’s agreement with the U.S. EPA to rehabilitate deteriorated sewer infrastructure across the city.

## When Will Work Occur?

Construction is planned for the spring of 2020. Estimated construction duration is 10 months.

## Construction Elements:

- ✓ Construction work includes the rehabilitation of 2,462 linear feet of 8-inch sewer main, 181 linear feet of 10-inch sewer mains, and 231 linear feet of 12-inch sewer main.
- ✓ Six segments (pipes) are located on CoSA’s street improvement projects.
