

Tobin Park 8-inch Siphon - CIPP

SAWS construction work on this project will rehabilitate approximately 509 linear feet of 8-inch sewer main. Sewer main is a siphon located in the east sewershed service area within the Robert L.B. Tobin Park. This project is part of the work required by San Antonio’s agreement with the U.S. EPA to rehabilitate sewer infrastructure across the city.

When Will Work Occur?

Construction is planned for the summer of 2019. Estimated construction duration is 2 month.

Construction Elements:

- ✓ Construction work includes the rehabilitation of 509 linear feet of an 8-inch siphon via cured-in-place pipe.
- ✓ Segment is located near the intersection of Starcrest Dr and Highcliff Dr and it’s within the Robert L.B. Tobin Park in the Salado Creek Greenway North.
- ✓ Segment crosses the Salado Creek and trails within Tobin Park.
- ✓ Project is located within an area considered to be sensitive where minimum excavation is allowed.
