Oral Statements

Oral statements or discussion during the pre-bid meeting today will not be binding, nor will it change or affect the terms or conditions within the Plans and Specifications of this Project. Changes, if any, will be addressed in writing only via an Addendum.

Agenda

- General Information
- SMWVB Requirements
- Contract Solicitation Website Recent Changes
- Vendor Registration
- Key Reminders
- IFB Schedule

- Bid Packet Preparation
- Contract Requirements
- Project Overview
- Supplemental Conditions
- Special Provisions

Medio Creek Admin. Foundation Remediation/Pier Project

General Information

- This is a Non-Mandatory pre-bid meeting
- Attendees must sign-in via chat on WebEx
- This presentation and the attendance sheet will be posted to the SAWS website
- Key project information:
 - Construction duration is <u>90</u> calendar days
 - Construction estimate <u>\$93,000.00</u>
- Construction services being procured through IFB

Aspirational SMWB Goal

Industry	Aspirational SMWB Goal
Construction	20%

The aspirational SMWB goal is 20% of your total bid price.

Accepted SMWB Certification Agency

South Central Texas Regional Certification Agency

(Includes the Texas Historically Underutilized Business "HUB" Program, MBE, WBE, SBE)

Minimum Qualifications for SMWB recognition:

- SBE-Certified (even MBEs and WBEs)
- Local office or local equipment yard

Page 7

Good Faith Effort Plan (GFEP) FAQs

• Q: Is the 20% SMWB goal mandatory?

A: No, but we ask prime contractors to do their best with good faith outreach efforts. If the goal is not met, proof of outreach efforts is required with the submittal.

• Q:What if I am having trouble finding SMWB subcontractors?

A: Please email the SMWB Program Manager with the scopes of work you are seeking. You will receive lists of local SMWB-certified firms to contact.

- Q:What if my business is SMWB-certified? Do I need to find SMWB subs?
 A: If your firm is SMWB-certified, you will most likely meet the goal. However, the GFEP is a required document, and a good faith outreach effort is still necessary.
- Q: Do I need to include all my subcontractors in the GFEP or just those that qualify towards the SMWB goal?

A: All subcontractors need to be included in the GFEP, even those that may not count towards the SMWB goal.

• Q:What if I have questions about the GFEP?

A: Please contact the SMWV Program Manager at 210-233-3420, or at <u>Marisol.Robles@saws.org</u> . GFEP questions can be asked at any time before the submittal is due.

Key Reminders

- All questions should be sent in writing to the corresponding Contract Administrator by email or fax.
- Please identify the project by its associated solicitation number.
- Contractors should not contact any SAWS staff.
- Late bids will not be accepted, and will be returned unopened.
- Due to the COVID-19 emergency and to protect the health of the public, SAWS is implementing new procedures for the submission of bids

Medio Creek Admin. Foundation Remediation/Pier Project

I CARLENGER STOTEMENT CONTRACTOR CONTRACTOR

Key Reminders – (con't)

- Bids will be received either Electronically or through Sealed bids
- Electronic bids will be received via the secure SAWS FTP site
- Sealed bids will be received by Contract Administration, 2800 U.S. Hwy 281 North, Tower II, Customer Center Building, via a drop box located on the left wall when walking through the first set of double glass doors of the main Tower II entry on the north side of the building
- If bids will be delivered in person to SAWS, Bidders should allow sufficient travel time

IFB Schedule

Medio Creek Admin. Foundation Remediation/Pier Project

Reception Accesses a constrained to the second sec second sec

Bid Packet Preparation

- Utilize the Bid Packet Checklist within the specifications
 - All items due with the bid
- Double check all mathematical calculations and verify all extensions
- Addendums are acknowledged on the Bid Proposals
- References and contact information must be verified prior to submitting bid(s)

Medio Creek Admin. Foundation Remediation/Pier Project

Statements - Anterestic subserver and the state

Project Overview

- Review of provided documents.
- Contractor is responsible to have a Licensed Structural Engineer Seal of approval for all planned work to be done.
- Utility Locates and Permits
- Removal of needed flatwork (sidewalks, pouches and slaps) for installation of piers. To include sidewalks, front and rear porches, slaps, etc....
- Any excavation required for installation of piers.
- Provide temporary supports for porch roof systems front and rear porches.
- Reinstall new post columns for porches, once new concrete slabs for porches are completed.
- Installation of expansion foam to fill voids under slab where piers installed exterior and interior.

Medio Creek Admin. Foundation Remediation/Pier Project

Project Overview (Con't)

- Back fill of all excavations. Top 2"of cover with new top soil.
- Reinstall all removed flatwork and slaps to match existing in size, depth, finish and construction. To include rebar and expansion joints to match existing. To included sidewalks, porches, slabs and other removed or damaged flatwork.
- Removal and disposal off site of concrete, dirt and other derby from project.
- Backfill of any yard ruts or other damage to yards, with new top soil.
- The plan to lift and flatten and stabilize the foundation.
- Contractors are HIGHLY encouraged to schedule a site visit with John Powers so that information can be gathered.
- For the interior piers, tunneling under the slab is a suggested option to install the interior piers, so we avoid damage to the interior flooring, and do not disturb the day to day operations of the building.

Medio Creek Admin. Foundation Remediation/Pier Project

SAMATATINA CONTRACTOR AND A CONTRACT AN

Project Overview (Con't)

- Concerning exterior concrete flat-work: Small breaks and the concrete to be patched where the piers are located is acceptable.
- The pier brackets are to be hot dipped galvanized steel.
- SAWS HVAC Department will assist Contractor to install or remove (if needed) a/c units, etc. this is why a site visit is highly recommended.
- Anticipated the cost of this project is \$93,000.00

Note: Base bid price to include cost for up to 30 foot depth of piers.

Contractor's Responsibilities

- The contractor is responsible to ensure that they have all tools necessary to perform the work listed above. This includes excavation equipment, all tools and equipment for installation of piers.
- All equipment and tools to be in safe operating condition.
- Closing of areas for work will be coordinated with SAWS's POC.
- Contractor to provide cones, barricades and safety caution tape if deemed necessary by the SAWS point of contact.
- Contractor responsible for cleanup and/or remediation of any spills on Saws's property. Oils, cleaners, etc....
- The contractor's employees shall ensure that all safety requirements are met. All employees must have proper PPE to perform the listed work. This includes hard hats, safety glasses, gloves, safety vests & safety harness. Foot protection.

Medio Creek Admin. Foundation Remediation/Pier Project

I SANANA SANA

Contractor's Responsibilities

- The contractor shall maintain a safe and clean work environment throughout the remainder of the project.
- Contractor shall remove all waste materials, and rubbish debris from site daily.
- Contractor is responsible for restoring, repairing, and making good any damage done to SAWS property or vehicles during the performance of the project.
- Provide tree protection for exiting trees.
- Contractor to provide documentation of depth of each pier. Pressure records related to the piers installation. Other standard documents or records for project normally required by Engineer.

Medio Creek Admin. Foundation Remediation/Pier Project

Notes:

- SAWS's will provide water for project.
- SAWS's will provide designated area for Contactor to use during project.
- Power to be supplied by Contractor.
- Contractor to provide storage pod for tools and equipment if needed. Saw's is not responsible for Contractors tools, equipment and materials left at site.
- Contractor to provide port-o-let for his employees during project.

SAWS Responsibilities:

- Repairs to any damaged plumping, gas lines, and lines that may be damaged during lifting process.
- Contractor is responsible to notify IMMEDIATELY any SAWS personnel on site of damage to any of the above lines. Contractor MUST know where all shut off valves are in the rare event of any lines being broke. Contractor then will notify Superintendent John Powers immediately of the line breakage. John Powers is available anytime at 210-557-0864.
- Coordinate with Contractor for locates of private lines. Contractor responsible for utility locates.

Page 25

Notes (Con't):

Working Hours:

- Weekdays Saturday (no Sunday work) 08:00 AM until 7:00 PM
- SAWS will work with Contractor to develop schedule for any work approved for during weekdays.

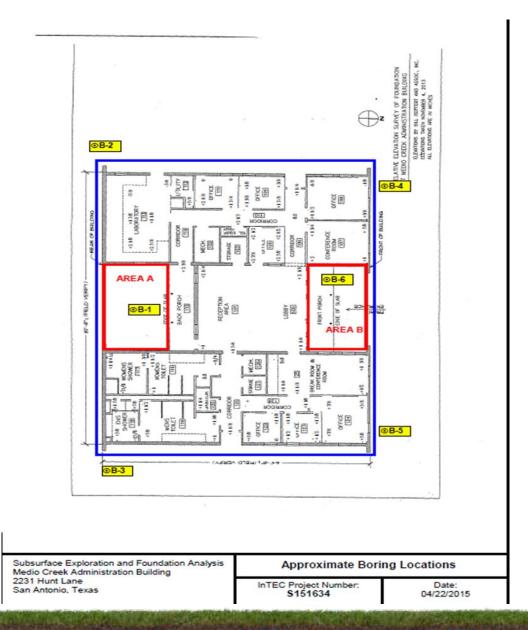

Warranty:

• 25 Years
