

2022 Sanitary Sewer Overflow and Reduction Program (SSORP)  
CMOM Large Diameter Engineering Design Services RFQ  
Solicitation NO. PS-00143-LE

**ADDENDUM NO. 2**  
**January 25, 2023**

To Respondent of Record:

**RESPONSES TO QUESTIONS**

1. On page 9 of the RFQ, it is stated that the Project Approach section has a “Six (6) page limit, which may include One (1) 11”x17” page (Schedule).” Is the one-page schedule in addition to the other 6 pages (so 7 total) or is it in lieu of one of the 6 pages (5 8.5x11 pages for the narrative approach and one 11x17 page for the schedule)?

*Response: The one (1) 11” x 17” page (Schedule) is part of the six (6) page limit total.*

2. Why were these two projects not awarded as part of the previous RFQ (PS-00134)?

*Response: SAWS opted to release these two projects as a separate solicitation in order to tailor the request and the submissions to a large diameter sewer replacement project.*

**END OF ADDENDUM 2**

This Addendum is one (1) page in its entirety with the attachments.
