

2024 Annual Asphalt Overlay Work Order Construction Contract, Package 3

This contract will provide contractor support to supplement the SAWS Distribution and Collection Operations Group with asphalt repairs. The City of San Antonio requires curb to curb mill and overlay of asphalt roadways that were previously in good condition prior to SAWS repair work.

The contractor will be responsible for providing labor, materials, equipment, and supervision to repair or construct asphalt in the SAWS system based on work orders issued by Distribution & Collection management. Work may include asphalt cutting, removal and disposal of excavation material, replacement of pavement, site cleanup, and painting of concrete. It may also include traffic control personnel and equipment.

When Work Will Occur:

- Construction award is planned for June 2024.
- Cost estimate for the project will be \$2,000,000.
- Contract term will be for 365 days or until the contract capacity runs out.

What to Expect:

- The work will be throughout SAWS' service area. Work orders are unspecified until time of issue.
- The work may be in coordination with and around SAWS repair work.
- During the construction of this project lane closure may happen adjacent to the project site.
