

Meadow Springs Water Production Facility

Meadow Springs Water Production Facility is a development project, located in far west Bexar County, near the intersection of US Hwy 90 W and SH 211. This project will expand the capacity of the water system owned and operated by SAWS to meet the growing demands in the surrounding areas.

When Will Work Occur?

- Construction is slated to start in the fourth quarter of 2023.
- Estimated construction duration is approximately 10 months
- Construction budget \$6,000,000

Construction Elements:

- This project includes the construction of 2 water wells and associated concrete wellhead structures.
- Construction work will take place in a developing area.
