

## **The Woodlands Off-Site Water Improvements Phase II**

A water main along FM 1283 extending to Red Wing Drive is required to service future development in the area. This main is being upsized to a 24" water main per an executed Utility Service Agreement (USA).

### **When Will Work Occur?**

- Final design is anticipated to be completed in February 2024.
- Work is anticipated to begin in June 2024.
- Estimated construction duration is 180 calendar days, and the estimated construction budget is \$2.0 million.

### **What to Expect:**

- Construction activities related to the installation of the 24" water main via both open cut and bore construction methods.
- Occasional lane closures and temporary impacts to roadways.
