

SAN ANTONIO WATER SYSTEM
SAN ANTONIO, TEXAS

Specifications For Disposable Thin Nitrile Gloves

Revised March 4, 2013

1. SCOPE

This specification covers personal protective glove wear to be worn by San Antonio Water System (SAWS) employees for use when hands may be splashed or contacted by liquid chemicals or sewage, while doing operations in the laboratory or in the field which are unlikely to tear the gloves. Glove wear shall be offered in a variety of sizes.

2. GENERAL REQUIREMENTS

Description:

- 9.5-inch long, 8 mil thick, 100% Nitrile thin-gauge glove. It is lightly powdered and free of latex and natural rubber proteins.
- Gloves available in Small through X-large.

3. APPROVED MANUFACTURERS AND MODELS

Approved Styles:

- Best N-DEX Glove 8005
- Cordova Nitri-Cor platinum Style # 4091
- NITRI-SHIELD Style 6025
- Shamrock 81890 series
- Liberty Gloves & Safety Style # 2008W
- Other equal brand will be considered with pre-approval. Must submit sample product and testing specifications for alternatives.

Disapproved Brands:

- Global Gloves Style # 805PF
