

## **Initial Database Monitoring**

The permittee shall initially document six (6) consecutive months of discharge monitoring to determine compliance with effluent standards established in the permit. If any discharge is found to be in violation of the permit limits, the permittee shall develop corrective measures to achieve and maintain consistent compliance. Techniques specified in 40 CFR 403 and 40 CFR 136 shall be used to collect and analyze any wastewater samples in connection with this database monitoring requirement.
